

Julieta Jakubowicz

A web designer with background in Visual Arts, Psychology, and Sociology, I believe technology should be defined by the purpose it serves.

Education

January 2014 - June 2014, New York

General Assembly - Javascript and HTML/CSS

Coursera - Human Computer Interaction, Finance 101

Fall 2008 - Winter 2011, Montreal, Canada

McGill University B.A. in Software Engineering and Sociology

CGPA: 3.63/4.00

Fluent in **English, Spanish, French.**

Experience

Freelance Web Design, Wordpress and Wix

Consulted with clients to maximize returns on their websites, and suggested useful additions.

By establishing **clear timelines**, I seamlessly evolved through several drafts to deliver results.

January 2014 - May 2015, New York

Blackboard Core Services, Software Engineer

Delivered front-end and **business logic** work for client-facing web features.

Developed **automated GUI testing suite** from scratch and extended unit testing.

March 2012 - December 2013, New York

Blackboard Collaborate, Software Engineer

As **Scrum Master**, enforced concrete, achievable goals, and ensured effective work distribution.

Participated in **UX-oriented client visits**.

Documented technical specifications and design diagrams.

As **feature owner**, ensured a coherent feature development by collaborating with UX and QA.

September 2011 - December 2011, Montreal, Canada

Teacher Assistant and Tutor, McGill School of Computer Science

Taught tutorials and review lessons, **developed curriculum**, and graded exams.

April 2010 - April 2011, Montreal, Canada

McGill University Reasoning and Learning Lab, Research Assistant

Developed **navigation software GUI** for a wheelchair for clients with restricted motor skills.

September 2009 - April 2010, Montreal, Canada

Division of Social and Transcultural Psychiatry, Professor Ian Gold, PhD.

Qualitative literature review and hypothesis development on the correlation between immigration and schizophrenia.
